Gen. Nunez Says He Didn't Promise to Stop All Agitation by Cuban Veterans.

PRESIDENT GOMEZ IS HUNTING FOR A POLICY

Conferences Are Still Being Excitedly Held in Tempestous Little Havana.

Havana, January 19.—A possible serious obstacle in the program for the unification plan, by which prominent Cubans with the purpose of reconciling political differences that menace the threat of intervention by the United States, came to light when Gen. Emilio Nunez, president of the Veterans' association, issued a statement denying the correctness of the official note which went at the palace last night following a conference of the president with prominent men of all sections, which announced that Nunez had given the pledge to President Gomez that agitation by the veterans would be immediately soso. In his statement Gen. Nunez says:

Denies Making Pact.

"I have made no pact with President Gomez, as some newspapers have stated. In an interview with the president I merely used my influence with members of the National Council to induce them to modify the resolutions which had given rise to agitation by the veterans, and which announced that Nunez had given the pledge to President Gomez that agitation by the veterans would be immediately soso. In his statement Gen. Nunez says:
